Expected Project Beginning Date: _____

Expected Project Ending Date: _____

If you filled out this form, thank you. We hope it helped you envision the garden of your dreams. You are an essential part of the design team.

Why Design?

A well-designed and properly installed landscape can increase your property value by seventeen percent. A poorly conceived and executed landscape can decrease property value, waste considerable time and money, and possibly present a liability risk.

My design goal is to help you plan, plant, and grow a successful, low-maintenance landscape with only positive effects on our environment.

By designing in the interests of soil health, sustainability and environmental responsibility, your garden will provide years of beauty, color, tranquility, privacy, and most of all, year-round joy and happiness with your investment.

At **Acorn Landscaping** our intention is to provide you with the garden of your dreams by combining superior landscaping and water gardens in an ecologically sound and friendly environment that can enhance your yard beyond your expectations.

You'll receive a prompt response with more information about our services.

OUR PRIVACY POLICY:

We consider your submitted information extremely confidential. It will NOT be shared, sold, or otherwise distributed to any other organization. **You have our word on it!**
